Port of Coupeville News

Coupeville Wharf Rehabilitation Project

Work continues on the comprehensive Coupeville Wharf Rehabilitation Project. A large barge is docked at the Wharf to drive the new

piles and reinforce the foundation. Also, fiberglass pile jackets are currently being installed. The Cap & Pile work will be complete by year's end.

Upgrading the Wharf's fuel tanks is underway. This is good news for our main customer: Penn Cove Shellfish. Their vessels visit the dock frequently.

An engineering firm will soon begin work on a new septic system design and upgrade. The new septic design will include a larger tank and improved ventilation.

Our new website has ongoing updates on all Port activities.

Thank You To Outgoing Port Commissioner Day

We're say farewell at the end of December to Commissioner David Day, who will be vacating his seat at the end of the year. We're grateful for your leadership and public service, and we wish you well in your next endeavor!

Day's replacement is Marianne Burr, who won election in November. And sitting commissioner John Callahan continues his service following the Nov election. He had been appointed to his seat earlier this year.
Stay tuned for more info in next month's newsletter.

CITIZEN COMMITTEES

Citizen Advisory Committees

The Port of Coupeville seeks interested community members to participate on an advisory committee representing either the Coupeville Wharf or Greenbank Farm.

The committees will focus on both immediate and future needs of these two historic properties. Each committee will present ideas and options to the Executive Director and the Port Commissioners during open public meetings.

If you are interested in caretaking either of these two historic assets, please contact the Executive Director at: executivedirector@portofcoupeville.org.
